(b) if so, whether Government have given any preliminary consideration for formulation of such policy; and

(c) if so, what priorities have been set for policy formulation and by when it would be finalised?

THE MINISTER OF AGRICULTURE (SHRI SUNDER LAL PATWA): (a) Yes, Sir.

(b) and (c) The task of formulation of Food Processing Policy is under way. Broadly, the Food Processing Policy would cover issues relating to availability of raw material, backward linkages, processing facilities including post-harvest infrastructure, packaging food quality and safety, marketing of products—domestic and export, awareness about processed food and fiscal incentives.

As wide ranging consultations would be required with the State Governments and other inter-related departments of Government of India before the policy is announced, it is difficult to indicate a timeframe within which the policy will be finalised.
